ELSEVIER

Resuscitation 31 (1996) 289–290

resuscitation

Volume contents

Volume 31 (1996)

In This Issue 1

Editorials

W.F. Dick (Germany)
Controversies in resuscitation: to infuse or not to infuse (1) 3

P.E. Pepe (USA)
Controversies in resuscitation: to infuse or not to infuse (2) 7

Clinical papers

H. Brugger, B. Durrer, L. Adler-Kastner (Italy, Austria)
On-site triage of avalanche victims with asystole by the emergency doctor 11

B.E. Brenner, J. Kauffmann (USA)
Response to cardiac arrests in a hospital setting: delays in ventilation 17

P. Martens, Y. Vandekerckhove, The Belgian CPCR Study Group (Belgium)
Optimal defibrillation strategy and follow-up of out-of-hospital cardiac arrest 25

C. Lester, P. Donnelly, C. Weston, M. Morgan (UK)
Teaching schoolchildren cardiopulmonary resuscitation 33

A. Destro, M. Marzaloni, S. Sermasi, F. Rossi (Italy)
Automatic external defibrillators in the hospital as well? 39
Editorial note 43

Experimental papers

L. Wik, P.A. Naess, A. Ilebekk, G. Nicolaysen, P.A. Steen (Norway)
Effects of various degrees of compression and active decompression on haemodynamics, end-tidal CO_2, and ventilation during cardiopulmonary resuscitation of pigs 45

A. Takasu, K. Yagi, Y. Okada (Japan)
Effect of mild hypothermia on ischemia-induced release of endothelin-1 in dog brain 59

H.-U. Strohmenger, K.H. Lindner, A.W. Prengel, E.G. Pfenninger, U. Bothner, K.G. Lurie (Germany, USA)
Effects of epinephrine and vasopressin on median fibrillation frequency and defibrillation success in a porcine model of cardiopulmonary resuscitation 65

Book reviews 75
Acknowledgement to referees 77
Instructions to authors 79
Literature of resuscitation 81

In This Issue 89

Obituary 91

Special Feature

N.A. Paradis (USA)
Cardiac arrest research in humans — insights into failure 93

Clinical papers

T. Silfvast, A. Ekstrand (Finland)
The effect of experience of on-site physicians on survival from prehospital cardiac arrest 101

C. Cappelle, R.I. Paul (USA)
Educating residents: the effects of a mock code program 107

L. Wik, P.A. Steen (Norway)
The ventilation/compression ratio influences the effectiveness of two rescuer advanced cardiac life support on a manikin 113

A.K. El-Bakry, A.B. Channa, H. Bakhamees, A. Turkistani, M.A. Seraj (Saudi Arabia)
Heat exhaustion during mass pilgrimage — is there a diagnostic role for pulse oximetry? 121
P.R. Hambly, R.P. Dutton (USA)
Excess mortality associated with the use of a rapid infusion system at a level 1 trauma center 127
K.S. Sunnerhagen, O. Johansson, J. Herlitz, G. Grimby (Sweden)
Life after cardiac arrest; a retrospective study 135

Experimental papers
K. Daughters, K. Waxman, H. Nguyen (USA)
Increasing nitric oxide production improves survival in experimental hemorrhagic shock 141
C. Bazzani, A. Bertolini, G.M. Ricigliano, M.M. Cainazzo, A. Balugani, S. Guarini (Italy)
The reversal of experimental hemorrhagic shock induced by nicotine and dimethylphenylpipazinium is adrenal-dependent 145
V.V. Semchenko, S.S. Stepanov, V.A. Akulinin (Russia)
Structural basis of information capacity changes of sensory-motor cerebral cortex of rat brain during post-resuscitation period 151

Literature of resuscitation 159
Letters to the Editor 171
Book review 175
Announcements 177

In This Issue 179

Editorial

W. Kaye, M.E. Mancini (USA)
Improving outcome from cardiac arrest in the hospital with a reorganized and strengthened chain of survival: an American view 181

Guidelines for Airway and Ventilation Management

AVM Working Group of the ERC
Guidelines for the basic management of the airway and ventilation during resuscitation 187

Guidelines for the advanced management of the airway and ventilation during resuscitation 201

Clinical papers

P. Baskett, J. Nolan, M. Parr (UK)
Tidal volumes which are perceived to be adequate for resuscitation 231
A. Dhar, T. Ostryzniuk, D.E. Roberts, D.D. Bell (Canada)
Intensive care unit admission following successful cardiopulmonary resuscitation: resource utilization, functional status and long-term survival 235
R. Malzer, A. Zeiner, M. Binder, H. Domanovits, G. Knappitsch, F. Sterz, A.N. Laggner (Austria)
Hemodynamic effects of active compression–decompression after prolonged CPR 243

Review paper

C.M. Olson, K.A. Jobe (USA)
Reporting approval by research ethics committees and subjects' consent in human resuscitation research 255

Case report

A. Gascoigne, A. Appleton, R. Taylor, A. Batchelor, S. Cook (UK)
Catastrophic circulatory collapse following re-expansion pulmonary oedema 265

Experimental paper

A.W. Prengel, K.H. Lindner, T. Anhäupl, J. Vogt, K.G. Lurie (Germany, USA)
Regulation of right atrial β-adrenoceptors after cardiopulmonary resuscitation in pigs 271
